

Daily Report 7/2020

10 January 2020¹

Summary

- Compared with the previous reporting period, the SMM recorded more ceasefire violations in Donetsk region and fewer in Luhansk region.
- The SMM continued monitoring the security situation at the disengagement areas near Stanytsia Luhanska, Zolote and Petrivske.
- The Mission saw weapons in violation of withdrawal lines in non-government-controlled areas, including tanks loaded on a cargo train travelling eastwards in non-government-controlled Debaltseve.
- The Mission continued to face restrictions to its freedom of movement at checkpoints of the armed formations in southern Donetsk region.*

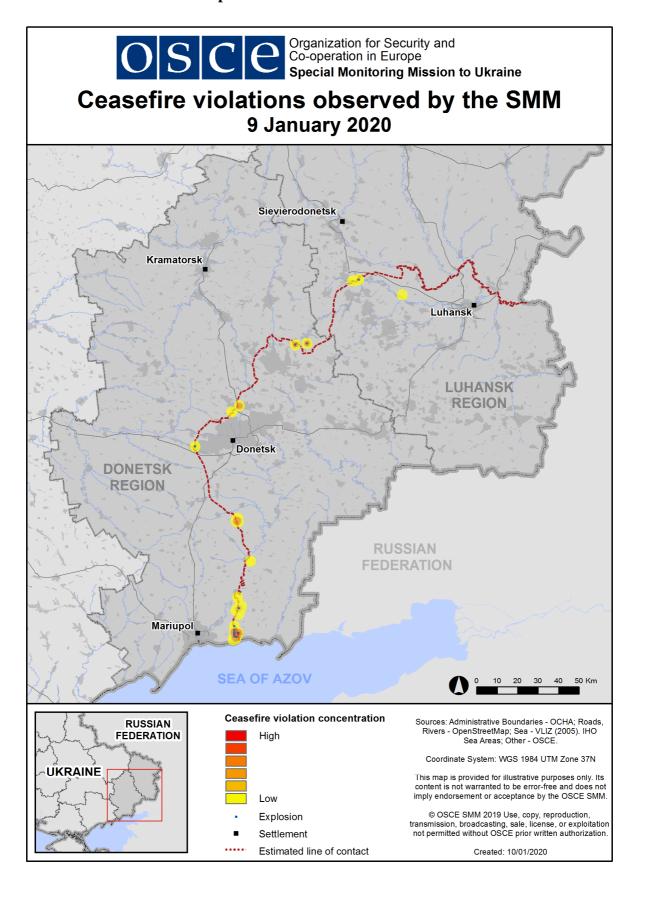

¹ Based on information from the Monitoring Teams as of 19:30, 9 January 2020. All times are in Eastern European Time.

² For a complete breakdown of ceasefire violations, please see the annexed table.

³ Including explosions.

⁴ Including from unidentified weapons.

Map of recorded ceasefire violations

In Donetsk region, the SMM recorded more ceasefire violations, including more explosions (about 70), compared with the <u>previous reporting period</u> (about 30 explosions). The majority of ceasefire violations, including the majority of explosions, were recorded in areas north and north-north-east of Shyrokyne (government-controlled, 100km south of Donetsk).

In Luhansk region, the SMM recorded fewer ceasefire violations, including fewer explosions (eight), compared with the <u>previous reporting period</u> (about 65 explosions). The majority of ceasefire violations, including all explosions, were recorded in areas west of Holubivske (non-government-controlled, 51km west of Luhansk).

Disengagement areas near Stanytsia Luhanska, Zolote and Petrivske⁵

Inside the **disengagement area near Stanytsia Luhanska** (government-controlled, 16km north-east of Luhansk), at the parking lot south of the checkpoint of the armed formations, the SMM saw the body of a deceased man (80-90 years old) laying on the ground. A member of the armed formations (wearing an armband with "JCCC" written on it) told the Mission that the man had died three hours earlier. The SMM saw five workers from non-government-controlled areas on <u>previously observed</u> scaffolding renovating the roof of the checkpoint of the armed formations south of the Stanytsia Luhanska bridge (15km north-east of Luhansk). Outside the disengagement area, 1.8km south of the bridge, the SMM saw a crane being used to build a bus shelter. On the same day, inside the disengagement area, the Mission saw six members of the armed formations (wearing armbands with "JCCC" written on them) between the new span of the bridge and their checkpoint south of the bridge.

Positioned 2.7km east of Bohdanivka (government-controlled, 41km south-west of Donetsk), the SMM <u>again</u> saw a mine hazard sign about 100-150m east from its position, on the southern side of the road to Viktorivka (non-government-controlled, 42km south-west of Donetsk), outside the **disengagement area near Petrivske** (non-government-controlled, 41km south of Donetsk). Positioned in Petrivske, the Mission <u>again</u> saw two mine hazard signs in the middle of the same road about 200m east of the disengagement area's north-eastern edge. While present, it observed a civilian car driving on the road past the two signs in the direction of Viktorivka.

On the morning of 9 January, positioned in Petrivske, the SMM heard three bursts of small-arms fire at an assessed distance of 1km west-north-west, assessed as outside the disengagement area but within 5km of its periphery.

Outside the reporting period, on the evening and night between 1-2 January, the SMM camera in Petrivske recorded 36 projectiles in flight at an assessed range of 1-3km south-west and west-south-west. On the evening and night of 2 January, the same camera recorded 27 projectiles in flight at an assessed range of 1-2km south-west and west-south-west. All of the above ceasefire violations were assessed as inside the disengagement area.⁶

In the early morning hours of 9 January, the SMM camera in **Zolote** (government-controlled, 60km west of Luhansk) recorded two illumination flares in vertical flight at an assessed range of 3-6km east, assessed as outside the disengagement area.

⁵ Disengagement is foreseen in the Framework Decision of the Trilateral Contact Group relating to disengagement of forces and hardware of 21 September 2016.

⁶ The delay in reporting is due to manual downloading of data from the SMM camera in Petrivske.

Withdrawal of weapons

The SMM continued to monitor the withdrawal of weapons in implementation of the Memorandum and the Package of Measures and its Addendum.

It observed seven tanks loaded on a cargo train travelling eastwards in Debaltseve (non-government-controlled, 58km north-east of Donetsk), as well as other weapons in a non-government-controlled area of Luhansk region, all in violation of withdrawal lines (for details, see the table below).

Weapons storage sites

At a permanent storage site in a non-government-controlled area of Luhansk region 9 January

The SMM noted that all weapons previously observed at the site were present.

At a heavy weapons permanent storage site in a non-government-controlled area of Luhansk region

9 January

The SMM noted that all weapons previously observed at the site were present.

Indications of military and military-type presence in the security zone⁷

The Mission observed armoured combat vehicles in government-controlled areas of Donetsk and Luhansk regions, as well as 20 and 15 armoured personnel carriers on 8 and 9 January, respectively, loaded on trains travelling eastwards in Debaltseve (for details, see the table below).

On 8 January, near positions of the armed formations near Rozsadky (62km north-east of Donetsk), an SMM mid-range unmanned aerial vehicle (UAV) spotted two fresh craters in a field, assessed as caused by mortar rounds (probable 120mm).

SMM facilitation of repairs to and operation of critical civilian infrastructure

The SMM facilitated and monitored adherence to a localized ceasefire to facilitate repairs to a water intake near Krasnyi Lyman (non-government-controlled, 30km north-west of Luhansk). The Mission continued to facilitate the operation of the Donetsk Filtration Station (15km north of Donetsk).

The SMM continued monitoring in Kherson, Odessa, Lviv, Ivano-Frankivsk, Kharkiv, Dnipro, Chernivtsi and Kyiv.

*Restrictions of the SMM's freedom of movement or other impediments to fulfilment of its mandate

The SMM's monitoring and freedom of movement are restricted by security hazards and threats, including risks posed by mines, unexploded ordnance (UXO) and other impediments – which vary from day to day. The SMM's mandate provides for safe and secure access throughout Ukraine. All signatories of the Package of Measures have agreed on the need for this safe and secure access, that

⁷ The hardware mentioned in this section is not proscribed by the provisions of the Minsk agreements on the withdrawal of weapons.

restriction of the SMM's freedom of movement constitutes a violation, and on the need for rapid response to these violations. They have also agreed that the JCCC should contribute to such response and co-ordinate mine clearance. Nonetheless, the armed formations in parts of Donetsk and Luhansk regions frequently deny the SMM access to areas adjacent to Ukraine's border outside control of the Government (for example, see <u>Daily Report 4 January 2020</u>). The SMM's operations in Donetsk and Luhansk regions remain restricted following the fatal incident of 23 April 2017 near Pryshyb; these restrictions continued to limit the Mission's observations.

Denial of access:

- At a checkpoint on the eastern edge of Sosnivske (non-government-controlled, 78km south of Donetsk), a member of the armed formations denied the SMM passage, citing the "need for advance arrangements to visit the village".
- At a checkpoint near Prymorske (non-government-controlled, 76km south of Donetsk), two members of the armed formations denied the SMM passage towards Naberezhne (non-government-controlled, 77km south of Donetsk), citing "ongoing demining activities in the area".
- At a checkpoint north of Zaichenko (non-government-controlled, 93km south of Donetsk), two armed members of the armed formations <u>again</u> denied the SMM passage towards Pikuzy (formerly Kominternove, non-government-controlled, 92km south of Donetsk) and Sakhanka (non-government-controlled, 97km south of Donetsk), citing "ongoing demining activities in the area". While present, the SMM saw civilian cars passing through the checkpoint in the direction of Sakhanka.
- At a checkpoint on the eastern edge of Shevchenko (non-government-controlled, 69km south of Donetsk), three armed members of the armed formations denied the SMM passage, saying that the "SMM should co-ordinate its movement with their superior".
- At a checkpoint on the southern edge of Nova Marivka (non-government-controlled, 64km south of Donetsk), an armed member of the armed formations denied the SMM passage, citing "ongoing engineering work in the village".

Delay:

- At a checkpoint near Verkhnoshyrokivske (formerly Oktiabr, non-government-controlled, 85km south of Donetsk), two armed members of the armed formations <u>again</u> allowed the SMM to proceed after about 20 minutes of waiting.

Regular restrictions related to disengagement areas and mines/UXO:

- The sides continued to deny the SMM full access, as well as the ability to travel certain roads previously identified as important for effective monitoring by the Mission and for civilians' movement, through failure to conduct comprehensive clearance of mines, UXO and other obstacles.

Other impediments:

- On four occasions, an SMM mini-UAV experienced GPS signal interference, assessed as caused by probable jamming, while flying over areas near Petrivske (non-government-controlled, 41km south of Donetsk).⁸

⁸ The interference could have originated from anywhere within the radius of kilometres from the UAVs' positions.

¹⁰ The table only includes ceasefire violations directly observed by the SMM and it may include those also assessed to be live-fire exercises, controlled detonations, etc. Details provided – in terms of distance, direction, weaponstype, etc. – are based on assessments provided by monitors on the ground, and are not always necessarily precise. When information is not known (indicated with an "N/K"), the SMM was unable to ascertain such information due to distance, weather conditions and/or other considerations. Ceasefire violations recorded by more than one patrol and assessed to be the same are entered only once.

Map of Donetsk and Luhansk regions¹¹

11 The SMM is deployed to ten locations throughout Ukraine – Kherson, Odessa, Lviv, Ivano-Frankivsk, Kharkiv, Donetsk, Dnipro, Chernivtsi, Luhansk and Kyiv – as per Permanent Council Decision 1117 of 21 March 2014. This map of eastern Ukraine is meant for illustrative purposes and indicates locations mentioned in the report, as well as those where the SMM has offices (monitoring teams, patrol hubs, and forward patrol bases) in Donetsk and Luhansk regions. (In red: a forward patrol base from which SMM staff has temporarily relocated based on recommendations of security experts from participating States as well as SMM security considerations. The SMM uses the premises during daylight hours and patrols in this settlement during daylight hours, as well).
