In reply delegations of EU and Sweden

I see neither EU nor Sweden delegation does not Anar Mammadov and realities concerning his arrest. Anar Mammadov is an editor criminal.az web site who was distributed false information regarding an attack against the mayor of country's second largest city Ganja. That's why Baku Court for Serious Crime found the editor guilty, abuse of professional duties and forgery.

Actually I did not hear any religious figure's name that my colleague listed. Azerbaijan is the very country where Christians, Muslims and other religion live together for te centuries. If one uses religion as a tool to act in terroristic manner, he has to be taken strict measures by law-enforcement bodies like in each participating states, because it is violation of national law, as well international law
