

## 2019 HUMAN DIMENSION IMPLEMENTATION MEETING

### The international association of independent democrats against authoritarian regimes.

Working session 3: Democratic institutions, including:– Democracy at the national, regional and local levels,– Democratic elections

There are dictatorship states: **AZERBAIJAN, BELARUS, TURKMENISTAN, TAJIKISTAN, and aggressive RUSSIA** and again , sorry, **UZBEKISTAN.**

**KAZAKHSTAN has the authoritarian system again.**

**But we hope** UZBEKISTAN and KAZAKHSTAN have the way of the opportunity to the DEMOCRACY.

**Dictatorships have not Democratic elections. It is the absolute truth ! Citizens in the dictatorships states have not the opportunity for the fair voting and the free participating in the election processes.**

We have elections spectacles in next dictatorships: **AZERBAIJAN, KAZAKHSTAN, RUSSIA** and for the decoration of the dictatorship of Lukashenko, the election spectacle: "*parliament elections*" for 17 November.

We propose to have your attention to next issues :

**AZERBAIJAN.** The **dictator Ilkham Aliev** showed : he is the Law!

The dictator appointed the election spectacle AND this spectacle was 11 **April** for his new dictator time.

The dictator Ilkham Aliev wants to be the sultan !

He (with the fake Constitution, art.101) called **extraordinary** elections of the president of Azerbaijan, before more 6 month of his term, without any reason. **It is for 210 days before the normal term with the law.**

We see the next violation of the democratic legislation and democratic rules.

The elections (at **April** ) didn't have the democratic , not fair elections.

**The dictator Aliev continues repressions for the democratic people.**

And remember. The wife of the dictator is the vice –president !

### KAZAKHSTAN

After the resignation of Nazarbaev, Kazakhstan had elections at 9 **June.**

But elections were **not** democratic elections. Kazakhstan had very large democratic protests. More 4 000 persons have been detained and next 1 000 have been punished with non fair trials.

The new president Kasym Tokaev doesn't show his democratic way !

We remember the chairmanship of Kazakhstan at 2010 and his declaration about a way to the Democracy...

**But what is the way, with China way or the West Democracy way ?**

## **RUSSIA**

For this state we see that the dictator Vladimir Putin is the good pupil of the dictator Lukashenko.\*\*\*

Election spectacle in Russia was at September and had the many protest actions by democratic people... and hard repressions by the power.

## **BELARUS**

**The dictator Lukashenko doesn't respects his Constitution with next time..**

Lukashenko appointed "elections" to the fake parliament at 17 **November**, this year. It is the very hard violation of the Constitution: Articles .93, 94, 95.

There are **very hard conditions with the Constitution for to stop the activity of the "parliament"**. Today Belarus has not same conditions.

**And we see minus 10 months for the work of the "parliament" !  
More.**

**This violation of the dictator Lukashenko makes the big Human Rights problem for yang people, also .**

After 17 **November**, after **next 10 month** the very many young people will have rights citizens ,the **right of the participation** in elections.

**But, at 17 November they have not this right again !**

**The young student made the application to Minsk court for the trial:**  
she waits the judgment for the illegal order of the dictator Lukashenko for **the date** of elections.

But the first court of the dictator made the rejection of the application.

We see the election spectacle in Belarus has the start with violations of the legislation And more , the power continues violations of the legislation.

**We SUPPORT USA PROPOSITION for the role of civil society and the right to a fair trial.**

\*\*\*

The dictator Vladimir Putin uses Belarus how the experimental polygon for his system decisions since 2000 year.

He looks to the activity of the dictator Lukashenko and ... next , Putin changes the state systems of Russia. We see examples for “self-governments”, for the direction of mass-media, for the method of mass repressions , repressions to NGOs etc.

.....  
Please, remember: Tajikistan will have the president elections at 2020 year.
